

Stark-Condé Oude Nektar Jonkershoek Valley 2016

We have been planning this wine for more than 15 years. We made a small "test run" in 2008, but the vineyard burned the following year and we had to re-plant. It is a Bordeaux-style blend based around this unique Cabernet vineyard and blended with the best parcels of our other Bordeaux varieties.

Varietal: 89% Cabernet Sauvignon, 6% Petit Verdot, 3% Cabernet Franc, 2% Malbec.

Clones: 169, 23 Rootstock: 101-14

Fruit source: our Oude Nektar farm in Jonkershoek

Valley

Yield: 7.5 tons/hectare

Alcohol: 14.0% Total Acid: 6.2 Residual sugar: 1.8

Total extract: 32.1g/l Trellis: 5-wire vsp

Irrigation: supplemental drip irrigation Vineyard elevation: 540-600m

Slope: South Westerly

Winemaker's notes:

This is the third vintage of this wine after re-planting the vineyard. Our idea has always been to make what is basically a single-vineyard Cabernet Sauvignon from this unique vineyard – although it is not a true single-vineyard in that we have blended in barrel selections of the best of our other vineyards. The Cabernet has a very intense cassis aroma with unique citrus-rind notes. It has a firmer tannin structure than many of our wines, but still with the elegance for which Jonkershoek Valley wines are known.

Total production: 3245 bottles

This wine is based around the highest elevation vineyard on the farm – at 500 meters arguably one of Stellenbosch's highest Cabernet vineyards. Originally planted in 2003, it burned down in 2009 and was re-planted. It is an ideal combination of soil and site. It has a very stoney decomposed granite soil with a clay subsoil and it has an almost perfect aspect towards the afternoon sun. This aspect and elevation means that the vineyard receives almost 45 minutes more direct sunlight than Stellenbosch average.

Details of vinification and oaking:
All of the grapes were hand-picked in mid-March.
This was our last vineyard to pick. The grapes
were cooled overnight and then de-stemmed and
carefully sorted. Fermentation was in small-lot open
tanks. The wine was cold-soaked for two days
before fermentation began. We did punchdowns 4-6
times a day during the vigorous part of fermentation and then 2 times towards the end. After about
10 days on the skins, the wine was pressed and
racked to barrel for malo-lactic fermentation. The
wine spent 20 months in barrel, all small French
oak, about 70% new. Bottled with no fining and no
filtration.
