

Stark-Condé
Three Pines
Cabernet Sauvignon
Jonkershoek Valley
2022

This is one of South Africa's most awarded Cabernets. A five-time Platter 5-star wine, 3-time winner of the Old Mutual Cabernet Trophy in South Africa and a 2-time trophy winner at the prestigious Six-Nations competition in Australia.

*Varietal: 85% Cabernet Sauvignon, 11% Petit Verdot, 4% Malbec
Clone: CS46C, CS163C, CS27A
Rootstock: Richter 110, 99
Fruit source: Our Oude Nektar farm in Jonkershoek Valley
Yield: 4.0 tons/hectare
Alcohol: 14.5%
Total Acid: 6.3
Residual sugar: 1.9
Age of vines: 33 years at harvest
Trellis: 5-wire vsp
Irrigation: supplemental drip irrigation
Vineyard elevation: 270-290m
Slope: South Westerly*

*Winemaker's notes:
The vineyards fared well in a very interesting season. Warmer temperatures during early harvest produced quality fruit with enhanced aromatics and richness. Perfect canopy and healthy vigour in the vineyards, despite smaller berries and loose bunches — a residual effect of the drought still evident. This will be an excellent, cellar-worthy vintage supported by firm tannins and zippy acidity. When young, this wine shows the violet, cassis, black cherry notes typical of this vineyard, coupled with the fine elegant tannins for which the Jonkershoek Valley is known.*

This wine is based on our "Block 5" of Cabernet Sauvignon, the oldest block on the farm. It has a very finely textured decomposed granite soil with a fairly high percentage of clay. This wine is characterised by its fine tannin structure and its unique floral notes.

*Details of vinification and oaking:
This wine is based on a higher elevation vineyard site with a finely-textured decomposed granite soil with a clay sub-soil and a gentle Southwest-facing slope. The wines made from this vineyard always seem to have good ripeness coupled with good natural acidity and a unique floral note that sets it apart from our other blocks of cabernet. There are five different clones within the block, but we focus on just three: clone 46 which is well structured, but with less forward fruit; clone 27 which tends to have a firm tannin; and clone 163 which is quite fruit forward. The grapes were hand-harvested in early March. They were picked into small lug boxes and cooled overnight to 14 degrees C., then de-stemmed and carefully hand-sorted, crushed into small open fermentation vats and cold-soaked for 2-3 days until natural fermentation started. Vigorous punchdowns were given every 4 hours for the first half of fermentation, then every 6-8 hours thereafter. The wine was basket pressed and racked directly to barrel for malo-lactic fermentation and subsequent barrel maturation. A mix of coopers was used, all French oak, all 300 litre, about 40% new. The wine was bottled without fining and without filtration after 20 months in barrel.*

*Total production: 3,323 bottles
This wine is certified organic by Ecocert.*
